AROUND the TOWNSHIP

Rinaldo Cozzi, well-known junior partner in Martine & Cozzi's store, is only 25 but he has lived a pretty full life in that length of time. He started working when he was 14. "Before that, I was just a bum," he quotes Harpo Marx with a grin. He was married when he was 17. He gives Mrs. Cozzi plenty of credit. "I had only \$300 and no job when we married," he recalls. "We saw some pretty tough times but Mrs. Cozzi is a good business woman. Now we have a 6-year-old in school." When Rinaldo reads this, it probably will surprise him some because we drew these things from him quite casually one day. We mention it here because it is heartening these days, when everyone seems to have the gimmes, to find a young fellow who isn't afraid to work for what he wants and who asks for no odds.

Mrs. Rose Vieux has the reputation among her acquaintances of being a first rate worker in organization affairs. As joking proof of this, they point to her execution of the job of cashier at the recent Berkeley meeting of the auxiliary for women. There were about 450 in attendance at the luncheon and Mrs. Vieux had to do the collecting for the lunch expense. It is no small job to get money from everyone at an affair of that size where there is always a certain amount of confusion and moving about. But Mrs. Vieux did it. What's more, she came out 17 cents ahead.

A loyal booster for Il Duce is Laurence Bonturi, proprietor of the Pepper Tree Inn. Bonturi is an American citizen who came to this country when he was in his teens. "My brothers and I were always talking about America and how we would like to go there," he recalls. "Finally my father grew tired of hearing us. One day at the dinner table, after we had been wearing the subject out, he suddenly said, 'How many want to go to the United States?' Two of us said we did. 'All right, come along,' he said and took us to the city hall, paid down our passage money and away we went." After many years in this country, Bonturi grows homesick for the days of his youth. "Italy is a fine nation," he says. "Everybody can have lots of fun there. Mussolini is all right. Seventy per cent of the people speak English." Bonturi believes that anyone who would open a milk shake stand in Italy would "clean up."

CINEMA STAR VISITS NILES

NILES — A blonde peacherino drove up to Sam Kerns service station Monday afternoon and bought some gas.

She looked vaguely familiar to some of the junior chamber of commerce boys who were passing the time of day there.

As she waited for Sam's assistants to fill up the tank, she spoke pleasantly about how pretty the bay country is, how attractive Niles canyon is during the early summer and how she wished she didn't have to hurry along.

When time came for payment, she presented a credit card.

It was signed "Jean Muir, Hollywood, Calif."

She drove off leaving the boys' mouths hanging open about a yard. Sam was the only one to retain his composure over the incident.

"Shucks," he said. "Think I'll get a sign reading: 'Sam's place—where movie stars gather.'"

Many people have seen the play starring Frank Bacon as "Lightnin' Bill Jones" on the New York stage, where it was played for two thousand consecutive performances. Will Rogers, too, in his motion picture version of the play, helped to make it still more famous.

The prologue takes place in a cabin in Nevada. The first and third acts take place in a hotel. The state line runs through the middle of the hotel, causing many humorous scenes. The second act takes place in a Reno divorce court, which provides for humorous, as well as gripping and dynamic scenes.

CALIFORNIA News of the Week

Washington.—California will receive \$9,000,000 and other federal allocations from a \$488,000,000 road construction bill passed last week in the United States Senate. The sum will come during the 1938 and 1939 fiscal years. Other amounts are expected from provisions in the bill for grade crossing separations, forest highways, Indian reservation roads and other purposes.

Sacramento.—Articles of Incorporation were filed by the Alameda County Fair and Racing Association, capitalized at \$250,000. The organizers are seeking a permit from the State Racing Commission for two 10-day horse racing meetings yearly at the old Pleasanton race track.

San Diego.—Delegates to the Southern California Baptist convention here passed unanimously a resolution demanding that Governor Frank F. Merriam allow no more horse race tracks in California.

Sacramento.—The State Board of Equalization has been asked by Walker Young, construction engineer of the Central Valleys Project, to deny liquor licenses in the vicinity of the project's construction camps. He specifically named the camps to be constructed at the Kennett, Friant and Keswick dams projects, northern railroad locations, work in Shasta County and the Pit river bridge.

The State division of Criminal Identification and Investigation reports the following offenses in California for the month of April and for the year to date:

	Year to April Date	32

San Francisco.—State and city officials are conducting investigations to establish responsibility for the holocaust that claimed four lives and injured 17 as flames swept through a night club here. The fire started when a "torch" dancer accidentally touched a flaming torch to flimsy silk decorations in the place. In the wild fight for life that followed, two men and two women were trampled under foot and left to die.

Loyalton.—The second largest town in California, by area, doesn't want that distinction anymore. Voters of this mountain town decided to lop off a few of the 48 square miles it has included since it was originally laid out in the gold rush days. This leaves Los Angeles in a class by itself as California's most far-flung city.

San Francisco.—Claiming he was injured in tripping over a kneeling bench in St. Francis De Sales Church, Oakland, last month, Thomas Kennedy asks \$32,400 damages from John J. Mitty as "the Roman Catholic Archbishop of San Francisco, a corporation" in a Federal Court suit. Kennedy charged the bench was not attached to the floor and was dangerously situated.

Los Angeles.—Marriages in California are on the upswing. In 1935 there were 56,554 weddings, an increase of 4,630 over 1934, according to a report issued by Dr. W. M. Dickie, State Health Department head. The State birth rate is increasing also, he said, with 1,780 more births recorded in 1935 than in the previous year.

Jackson.—The only known cobalt mine in the Mother Lode area has been discovered near Butte Mountain. With fifty tons already extracted, the mine shows indications of being a producer.

San Francisco.—Public school buildings may not be used for Sunday school or church services under the law of this State, according to an opinion given by Attorney General U. S. Webb. In his ruling, Webb declared that "Sunday school or church services are in fact sectarian or denominational as contemplated by the school laws of the State," therefore permission cannot be granted.

Tulare.—A silver in a finger caused an infection which resulted in the death of M. V. Goulart, 42, engineer employed by the Golden State Creamery here.

Washington.—California was one of 11 States which registered fewer residents in 1935 than in 1930, despite a gain of nearly 5,000,000 for the nation as a whole. The State had 5,677,251 on April 1, 1930, and 5,639,000 (estimated) on July 1, 1935, according to the Census Bureau.

Faultlessly Tailored for Spring

By CHERIE NICHOLAS

FASHION is in a contradictory mood this season, which makes the game all the more fascinating. Either you are more strictly tailored or you go beguilingly feminine with all sorts of furbelows.

Your wardrobe for spring and summer is made to play this dual role in that you may choose between being that faultlessly and uncompromisingly tailored the masculine members of the smart set will see themselves outlived in the matter of meticulous detail or your costume feminizes to the extreme via gay prints, gay flowers and a lavishness of adorably frivolous accessories that are utterly devastating in their coquetry of color and flutter and chic and charm.

Speaking from the smart tailored viewpoint every fashion-wise American woman is dashing out with joy in her heart to fit herself with a feminine version of the latest in men's swanky topcoats or trim business suits. Always she has envied the slim distinction of well-cut masculine attire, and from experience with riding habits and active sports costumes she knows that mannish styles accent rather than detract from femininity.

Broad shouldered and slender hipped, the two models pictured are man-tailored in the best tradition with a custom-built look that makes them eminently correct. The jacket suit of men's wear wool has arrived at a highspot of perfection which makes instant appeal with best-dressed women. Its lines are in the latest fashion with gracefully sweeping lapels, single-button jacket closing and braid - bound edges and pockets. One of the very smart details in high-style tailoring this season is the preference

given braid-bound edges. The stunning straight-cut skirt closes oh-so-neatly with a concealed slide fastener at the side. The oxford shade of the wool is beautifully adapted to the formality of the jacket, and the skirt may be changed for a pin-stripe matching flannel for the girl who has always had a hankering for a chance to pin a gardenia in her buttonhole and look like the handsomest usher at a fashionable wedding.

The Chesterfield type topcoat shown, of a fine herringbone medium weight woolen, is an ideal choice for wear over any tailored costume. The traditional velvet collar, high lapels and side pockets with flap tops are both chic and mannish. The coat is fitted for a slender-waisted effect, which is further accentuated by the double-breasted closing.

The varying length of this season's coats makes it important to suit your coat length to your wardrobe. This Chesterfield is cleverly designed in the new style which allows just an inch or two of the skirt to show at the hemline. As here pictured an excellent ensemble idea is carried out as it ties up accessories, skirt and hat as accent to the topcoat.

Because of its fitted lines, this model is easily adapted both to sports and street wear over the new sheer, wool tailored frocks as well as over spring suits. The beauty of this season's woollens is that they are related in color so as to be friendly and tuneful to versatile combinations that admit of interchangeable alliances and effects.

LONG NET CAPE

By CHERIE NICHOLAS

Multi-color carnations on black silk crepe interpret the new fashion in prints that calls for dark backgrounds with widely spaced single flowers. The shoulder straps of cutout flowers forming a ruche effect are also of style significance. As to the long cape made of dotted net it defines fashion at its smartest, for wherever possible designers are velling both daytime and evening prints with net or tulle. The jewels worn with this stunning gown are superb.

Predicts One of Nine Persons Will Be Injured During 1936

Every ninth person will meet with an accident of some sort this year if past statistics can be relied upon, L. D. Cavanaugh, executive vice president of the Federal Life Insurance Co., of Chicago, asserted recently in a statement issued in connection with Accident and Health week. "The number who will probably meet with accidents," Cavanaugh continued, "is five times as great as are expected to die from natural causes. More than 8,250,000 persons were injured and more than 100,000 killed by accidents in the United States last year, according to statistics compiled by the National Safety Council. The toll taken by sickness is even greater. While an average of 17 persons is injured in accidents every minute of the night and day, 51 are disabled each minute by sickness."

Habits Live

A MIEL, the philosopher, was never wiser than when he said: "Habits count for more than maxims, because habit is a living maxim, become flesh and instinct. To reform one's maxims is nothing; it is but to change the title of the book. To learn new habits is everything, for it is to reach the substance of life. Life is but a tissue of habits." Each good habit we weave in our teens means a better and happier life to its very end.

do as the
factory specifies

To the motorist who thinks that anyone can "grease" a car, we have a friendly warning: Every car, every model, requires individual treatment in lubrication. The ordinary grease job too often overlooks factory specifications. Points that are forgotten, or where the wrong type of lubricant has been used, soon lead to trouble—sometimes a serious breakdown.

Factory-Specified—an individual service

When you take your car to the Smiling Associated Dealer who displays the "Factory-Specified" sign, he lubricates it exactly as the manufacturer intended. He uses the individual factory lubrication chart of your car. Nothing is overlooked. He sees to it that everything about your car is right for you to enjoy all the pleasures of Associated motoring.

BALL SERIES ON SECOND SESSION

NILES — Second half of the Southern Alameda county baseball league series started Sunday with a 5-3 victory for Irvington against Niles.

The series will run for three more Sundays with a playoff after that if necessary, says H. L. Scott. At last week's league meeting, the two low teams, Niles and Alvarado, were given the right to add two new players each if they saw fit.

Mr. Scott reported to the Chamber of Commerce at Monday's meeting that the Niles team was at last finding its stride and was doing better. Because of the onerous duties involved in handling the games, Mr. Scott said he had prevailed on the Niles Junior chamber to assist in collecting, and in other details. The Junior chamber assigned a number of collectors to the gates at last Sunday's game, resulting in about

double the usual collections. Since the league is nearing the end of its schedule, Mr. Scott thought new uniforms unnecessary for this year.

Big Cut Made in Phone Charges

SAN FRANCISCO—N. R. Powley, president of the Pacific Telephone & Telegraph company and the Southern California Telephone company, has advised the California railroad commission, in accepting that body's recent order reducing rates in the Los Angeles exchange, that the company would, subject to the approval of the commission, voluntarily reduce its exchange rates in the San Francisco-East Bay exchange and reduce the hand set rate in all exchanges throughout the state, all of these reductions to become effective with the bills issued on and after June 1, 1936.

In making this announcement, Mr. Powley stated:

"The total annual savings to our customers in the state of California, as a result of these rate reductions, will approximate \$3,100,000. We are voluntarily offering to reduce our San Francisco-East Bay exchange rates \$1,250,000 per annum.

"The San Francisco-East Bay exchange rates include a reduction of 50 cents a month for individual line business message rate service; a reduction on private branch exchange trunk lines; reduction in semi-public service

guarantee; a reduction of 25 cents a month for one-party residence service; a reduction of 25 cents a month for two-party residence flat rate service; a reduction of 25 cents a month for two-party residence message rate service and

the elimination of a monthly charge for long cords.

"The hand set rate for all exchanges is reduced from 25 cents a month to 15 cents a month, with the provision that the charge will be eliminated after the customer

has had this service for 18 months and is to be eliminated at once for customers who have now had this service for 18 months or more. We look forward, ultimately, to the complete elimination of this additional charge."

The divided skirt is suitable for golf, tennis, bicycling, riding and hiking. It assures plenty of room and comfort, buttons on the side and supports the most youthful blouse. Note the sports pocket, Peter Pan collar, raglan sleeve and dainty feminine bow.

VISIBLE PROTECTION

You may know today, beyond a shadow of doubt, that the refrigerator you buy will give you long years of service. Because the 1936 Kelvinator is backed by a 5-year Protection Plan, written and signed by the oldest company in the electrical refrigeration industry.

VISIBLE ECONOMY

Today, for the first time in the history of the industry, Kelvinator provides you with a Certificate of Low Cost of Operation. The 1936 Kelvinator uses ONE-HALF or ONE-THIRD as much current as many refrigerators now in use. This saving ALONE may justify replacing your old refrigerator.

CAR TURNS OVER, GIRL IS FATALLY HURT IN WRECK

LIVERMORE—Mary J. Gillham, 19, died in Fountain hospital at Livermore Saturday of injuries suffered in an automobile accident near Calaveras dam. She had been riding in an automobile driven by George Robinson, 22, of San Francisco when the accident occurred. The car was one of three bearing a party bound for a barbecue on the Grimmer ranch.

Robinson said dust thrown up by an automobile traveling ahead of his car obscured his vision so that he did not see a curve in the road. His car ran off into a soft shoulder, rolled down an embankment and turned over twice. He suffered serious cuts and bruises.

GLADFRED VIERY RETURNS TO JOB

NILES—Bronzed by the southern sun, Gladfred Viery, manager of MacMarr's store, with his family returned last week from a two weeks vacation.

Viery is enthusiastic over the fine fishing, the scenery and the kindness of the people in Mexico. He heard no discussion of Mexican politics.
